PRELIMINARY AMENDMENT

Commissioner of Patents
Washington, DC 20231

Sir:

Prior to the initial examination, please amend the above-identified application as follows:

IN THE SPECIFICATION:

Please insert at page 19, after Table 1, before line 3, the following paragraph:

a1
--These results are shown in Table 1.--

Please amend the paragraph beginning at page 24, line 17, with the following paragraph:

a2
--A jumbo roll of a biaxially oriented film was obtained, and then slit to give a film roll by the same method as in the comparative example 5 except that the oscillation ratio was changed to 150 mm. The shape of the obtained film roll in the width direction was measured with a bulk shape measurer manufactured by Kitano Kikaku (Ltd.) by the same method as in the comparative example 5. Among the lengths of lines which were obtained by drawing a straight line between both the ends of the obtained curved line, and then vertically drawing the lines from the convex portions to the straight line, the length of the maximum convex portion was 550 μ m, and among
